### About Me

I'm a Frontend Developer with three years of experience specializing in JavaScript and React. I excel in creating intuitive, responsive designs and enjoy simplifying complex challenges to deliver practical solutions. My strong communication skills and passion for continuous learning enable me to effectively collaborate with teams and adapt to new technologies. Dedicated to building engaging and high-quality web experiences, I am excited to contribute my expertise and enthusiasm to innovative projects.

### Work Experience

#### Frontend Developer at Emiteo

August 2024 - Present

At Emiteo, an investment crowdfunding platform, I was responsible for developing and maintaining the frontend of the platform that connects investors with businesses seeking capital. My key responsibilities include:

- **Website Maintenance:** Regularly updated and maintained the frontend of the company’s website to ensure accuracy and performance.
- **Content Management:** Updated website content and UI elements based on current requirements and user feedback.
- **Coding Layouts:** Implemented responsive layouts based on design specifications to enhance user experience across devices.
- **Updating Layouts:** Adjusted and refined existing layouts to accommodate new features, design updates, and functionality improvements.
- **Performance Optimization:** Improved website load times and responsiveness through code optimization and asset management.
- **Bug Fixing:** Identified and resolved frontend issues to ensure a seamless user experience.
- **Cross-Browser Testing:** Ensured website compatibility across various browsers and devices.
- **Feature Implementation:** Integrated new features and enhancements as per project requirements and design specifications.
- **Code Quality:** Followed best practices for clean, maintainable code and version control.

#### Self-directed Frontend Development Projects

April 2021 - August 2024

- **Personal Web Development Projects:** Engaged in various personal projects utilizing JavaScript and React to build web applications.
- **Developed Web Applications:** Created and maintained several web applications with a focus on intuitive and responsive user interfaces.
- **Kept Current with Industry Trends:** Regularly updated skills and knowledge on the latest web development trends, best practices, and emerging technologies.
- **Committed to Professional Growth:** Demonstrated dedication to professional development through continuous learning and the application of new frontend technologies.

#### IT Specialist at AXA

July 2018 - April 2021

- **Provided User Support:** Collaborated with a team of 20 to deliver effective user support and resolve technical issues.
- **Managed Daily Tasks:** Handled phone support, planned, and completed daily assigned tasks efficiently.
- **Supported OS Migration:** Assisted with the operating system migration process, ensuring minimal disruption.
- **Configured and Troubleshoot:** Configured and troubleshoot software and hardware issues to maintain system performance.
- **Monitored System Performance:** Reported system downtime and performance issues to ensure timely resolutions.
- **Conducted Training:** Provided IT-related training to new hires and users, enhancing their technical skills and knowledge.
- **Managed Hardware Inventory:** Oversaw hardware inventory management to ensure proper asset tracking and availability.

#### Junior IT Specialist at AVIVA

March 2017 - October 2017

- **Provided User Support:** Delivered timely and effective user support, troubleshooting and resolving technical issues.
- **Participated in OS Migration:** Contributed to the seamless migration of operating systems, coordinating with the team to minimize disruptions.
- **Managed Support Tickets:** Addressed and resolved support tickets within established Service Level Agreements (SLAs), ensuring high-quality service.
- **Assisted Team Members:** Supported colleagues in the IT support team, promoting a collaborative and efficient work environment.
- **Documented Solutions:** Maintained accurate records of issues and resolutions to aid future troubleshooting and improve support processes.
